

A close-up photograph of several fabric swatches, likely velvet, arranged diagonally. The colors range from a light cream to a deep, rich red. The texture of the velvet is clearly visible, showing the characteristic pile and sheen. The lighting is soft, highlighting the texture and color variations.

Luxurious Velvets

SilverState *fabrics*™

Indulge yourself with Luxurious Velvet

SilverState *fabrics*™ has transformed the luxury of opulent velvet into a performance fabric category. Designed to not only meet, but to exceed the rigid specifications for the hospitality and contract industries, **Luxurious Velvet** is a collection of five patterns offering different textures and sheen. These velvets bring superior specifications to contract and hospitality applications as well as the well lived-in home. The abrasion rating for Luxurious Velvet will exceed the heavy upholstery specification of 50,000 double rubs. All five patterns have an extraordinary stain resistant finish that not only repel stains, but also make for easy cleaning and care.

Luxurious Velvet was designed to meet all of the beauty and aesthetic requirements that were once only available for high-end residential upholstery. With Luxurious Velvet, Silver State has brought confidence in using this fabric option to a new level when specified for restaurants, lounges, clubs and spa. And, residential designers will love the performance quality that provides longevity for homes. Go ahead, slip into luxury, and know that the SilverState fabrics brand will allow you to live in it worry free.

SilverState *fabrics*™ offers a stunning, yet practical line of fabric and vinyl to suit a host of multiple applications: residential, commercial, healthcare, hospitality, automotive, and marine. SilverState *fabrics*™ are available in a host of textures, patterns and colors, many of which are designed to repel stains, moisture, mildew and bacteria. Where durability and fade resistance have to balance style, exclusivity and touch, we have led the way in the use of decorative fabrics for performance applications with such recognized brands as Sunbrella® and Crypton® as well as the environmentally intelligent, recycled and recyclable, Terratex®.

Luxurious Velvets Cleaning Instructions

Cleaning Instructions for Athena, Desire and Radiance:

Clean only with dry cleaning solvent. Do not saturate Do not use water. Pile fabrics may require brushing to restore appearance. Cushion covers should not be removed and dry cleaned.

Cleaning Instructions for Brilliance:

Machine wash in cold water only. Do not bleach. Line dry only, do not iron. Do not dry clean.

Cleaning Instructions for LuxSoleil:

Sunbrella brand fabrics should be cleaned regularly before substances such as dirt and food particles are allowed to accumulate on and become embedded in the fabric. The fabric can be cleaned without being removed from the piece by simply brushing off any loose dirt, etc. and cleaning with water and a mild soap solution (no more than 100 degrees F).

If the fabric can be removed from furniture, it may be cleaned in a mild soap and lukewarm water solution (less than 100 degrees F) in a washing machine and dried in an environment also less than 100 degrees F. When washing or cleaning, do not subject to excessive heat as the fabric will shrink. Do not steam press or dry in electric or gas dryers. Allow fabric to air dry.

Cleaning Solutions: Our recommended cleaning solution for most stains consists of 0.5 ounce of antibacterial dishwashing liquid to 22.5 ounces of water. For stubborn stains please consult the Stain Chart.

Cleaning Method

1. Remove any residual soil by lightly brushing or scraping the stain. Attempt to remove stain by sponging with water.
2. If further cleaning is needed, apply light mist of our recommended cleaning solution using a spray bottle.
3. Work the solution into the stain by lightly scrubbing the area with a sponge or very soft bristle brush.
4. Remove cleaning solution with a wet-vac if possible, but at the very least blot with a clean soft towel or sponge to remove the stain and excess cleaning solution. Repeat steps 2-4 until stain is removed.
5. Rinse the affected area thoroughly with clean water applied with a spray bottle and extract the remaining moisture using a wet-vac, sponge, or towel. Repeat rinsing method if needed to thoroughly remove cleaning solution from the fabric.

Helpful Hints If possible remove fabric and wash-and-rinse in a washing machine using lukewarm water (less than 100 degrees F) and mild soap. Air dry.
